### TO WHOM SO EVER CONCERN

The Institute has implemented e governance facility in various areas like academic activities, administrative activities, Finance and Support system, Student support and Institutional Examination through LMS software and Patient management software.

Apart from this the admission process of the students (Undergraduates and Postgraduates) happens through Karnataka Education Authority (KEA). Entire admission process is through online and Institute has the access of the same through unique username and password provided to the Institute.

The institution also uploads the Internal Assessment marks using the Online Examination System provided by the Rajiv Gandhi University of Health Sciences Bangalore, attendance of the students, practical examination marks via the RGUHS online portal making the entire process paper free.

### POLICY DOCUMENT FOR E-GOVERNANCE

The institution is striving hard towards introducing newer digitalization modes of the various activities that are performed in the institution. The institution is working toward a more digital workflow model. The office circulars pertaining to CDE programmes, any conferences etc. are conveyed to the staff members via emails.

The admission process for the BDS students and the MDS students is also online through the KEA ( Karnataka Examination Authority) website which makes the process completely digital and transparent. The institution also uploads the Internal Assessment marks using the Online Examination System provided by the Rajiv Gandhi University of Health Sciences Bangalore, attendance of the students, practical examination marks via the RGUHS online portal making the entire process paper free.

The college is also having Densoft Infotech Pvt Ltd a Patient management software which helps the institution and the various departments to gain access to the patient's record and the treatments carried out in different departments.

The institution has LMS software named Edumerge software which makes the institute digital in feeding various academic and administrative data on a day to day basis.

The internet connection provided to each department are managed by a Central LAN server which make data accessibility very easy.

The Department of Orthodontics has also procured NemoCeph digital software which will help for the diagnosis, treatment planning and case presentation to the patient in the field of Orthodontics. This software is the best tool for cephalometric analysis.
