Research publication / presentation ethics guidelines at the Institute

These guidelines are applicable to all the research work carried out at the Institute including main dissertation, term papers, short research, case reports, original articles, reviews and meta-analysis conducted by faculty, Post graduate or undergraduate students at the Institute.

- ❖ All the research work conducted in the Institute has to mention in any subsequent publication or presentation the name of the Institute and the concerned department's name in the methods section. Such details also need to be mentioned in description of author affiliations.
- ❖ Decision regarding 'First Author'
 1. Publications related to main dissertation/ thesis should have PG student as 'First Author' and the staff who has guided the dissertation should be the 'Corresponding Author'. The remaining authors can be chosen based on the substantial contribution to the research and the manuscript.
 2. Publications related to Non-dissertation for example, short studies, surveys, case reports, case Scenarios, Reviews, Meta analysis etc can have the first author whoever conceptualized the 'Primary Idea' to do the study or present the finding into a Publication. The Primary Idea can be from staff, PG or UG student or staff of other department.
- ❖ The Institution's name should be as "Maratha Mandal's Nathajirao G. Halgekar Institute of Dental Science & Research Centre, Belagavi."
- ❖ Kindly publish articles in the Journals which are from SCOPUS, Web of Science, UGC care or PUBMED.
- ❖ All such completed research must first be submitted to the Head of the department seeking permission for publishing and may proceed with submission only after due approval.
- ❖ The Document should contain the final manuscript ready for submission with the title page including authors' names, Institutional affiliations and acknowledgements.
- ❖ The authorship guidelines (See link below) of the ICMJE should be followed for deciding authorship, conflicts of interest and other related issues:
<http://www.icmje.org/recommendations/browse/roles-and-responsibilities/defining-the-role-of-authors-and-contributors.html>
- ❖ The following ICMJE recommended authorship criteria must be strictly adhered to. For being considered as an author, the author must satisfy all the criteria below:
 - Each author should have made "Substantial contributions to the conception or design of the work; or the acquisition, analysis, or interpretation of data for the work"; **AND**
 - Each author should have contributed in "Drafting the work or revising it critically for important intellectual content"; **AND**
 - Author should certify "Final approval of the version to be published"; **AND**

Dr. Ramakant Nayak
Principal

1

- Each author must sign an “Agreement to be accountable for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved.”
- In addition to being accountable for the parts of the work he or she has done, an author should be able to identify which co-authors are responsible for specific other parts of the work. In addition, authors should have confidence in the integrity of the contributions of their co-authors.
- ❖ All who meet the above criteria should be identified as authors. Those who do not meet the authorship criteria should be acknowledged appropriately after obtaining written or by email permission for placing their names in acknowledgements.
- ❖ Each post –graduate student and any undergraduate student involved in research should submit the following:
 - Submit a declaration to the head of the department (of all concerned departments where the research will take place) stating that she has read and will adhere to the institutional guidelines for Publication ethics (As stated in this document) during his tenure at the Institute. Student should also declare that she/he will apply these guidelines while publishing all research conducted in this institution, even after completion of post-graduation and moving to subsequent institutions.
 - On completion of research, submit a declaration that the integrity, originality, truthfulness and authenticity of data were duly ensured to while collecting and analyzing data. The student also needs to name one person from the Institute (with most substantial contribution to the particular work like Guide or co-guide) as “Corresponding author” for that research work for use in subsequent submission for publication.
- ❖ The institution holds the authority to take disciplinary action if any of the aforementioned aspects are not followed. Such disciplinary action may involve informing the concerned journal editor for retraction or informing the University or Council for further disciplinary action.
- ❖ All the research work conducted in the Institute has to mention in any subsequent publication or presentation the name of the Institute and the concerned department’s name in the methods section. Such details also need to be mentioned in description of author affiliations.

Student declaration form

(To be submitted to the HOD of departments where the research is being carried out)

- ❖ I have read and am aware of the publication ethics guidelines of the Institute and declare that I will adhere to it during my tenure here. I will also be liable to apply those guidelines to all the research carried out in this Institute even if subsequent publication / presentation is made after I leave the Institution after my post-graduation.
- ❖ I will adhere to and will strictly follow the authorship guidelines (See link below) of the ICMJE for deciding authorship, conflicts of interest and other related issues:
<http://www.icmje.org/recommendations/browse/roles-and-responsibilities/defining-the-role-of-authors-and-contributors.html>
- ❖ I will also adhere to all the research guidelines issued by ICMR and any such competent authority of our nation or state.
- ❖ All those who meet the authorship criteria will be identified as authors. Those who helped me with research but do not meet the authorship criteria will be acknowledged appropriately after obtaining written or by email permission for placing their names in acknowledgements. This includes the data processing work, data analysis carried out inside or outside of the Institute.
- ❖ I shall NOT include anyone as author who has NOT substantially contributed to the manuscript as stated in the authorship criteria.
- ❖ I will assure the integrity, originality, truthfulness and authenticity of data collecting and analyzing in my research.
- ❖ I shall name one person from the Institute (with most substantial contribution to the particular work like Guide or co-guide) as “Corresponding author” for that research work for use in subsequent submission for publication.
- ❖ On completion of my research, I shall submit a document containing the final manuscript ready for submission with the title page including authors’ names, institutional affiliations and acknowledgements.
- ❖ For my research work conducted in the Institute, I will mention in any subsequent publication or presentation the name of the Institute and the concerned department’s name and names of all substantial contributors in the methods section and affiliations of such presentations/publications.
- ❖ I hold myself accountable for all the above.
- ❖ I know that the institution holds the authority to take disciplinary action if any of the aforementioned aspects are not followed. Such disciplinary action may involve informing the concerned journal editor for retraction or informing the University or Council for further disciplinary action.

A Subcommittee Meeting is called to discuss the following research Proposals which have been Submitted to the Research Committee.

① A research proposal title "Isolation, Identification & Characterisation of Aggregatibacter actinomycetemcomitans from Patients with aggressive Periodontitis" submitted by Dr. Kishore Bhat. The selection of patients & sample collection will be done at Kamineni Institute of Dental Sciences - Andhra Pradesh. The laboratory procedures will be carried out in CRL MNRGHS IDS. For the lab procedures the ethical certificate has been given.

② A research proposal submitted by Dr. Swapnali B. Ghumane was evaluated. Title - A kaleidoscopic vision towards correction. The following corrections were communicated.

- The title is inappropriate, does not reflect the study design.
- Objectives need to be reformed.
- Methodology need to be more clear.
- Statistics → Sample size estimation is not clear.
- It appears that two different studies have been combined.
