

2018-19

YOU IN YOU THAT YOU NEVER KNEW

Amidst the chaos of the world, it is often that a man loses himself to his own whirlwind. A ray of sunshine, a beacon cutting through the fog is what he hopes to receive. He looks around, in dismay. If only he could realize, what he needs the most lay cloaked within himself. Knowing oneself is an enormous tool that often surprises an individual of the skills they thought never existed. On 31st of December 2019, under the guidance of Dr. Aarati Nayak, the Department of Periodontology tapped on to their inner self. Revelations, realizations and perceptions were made and CHANGED. Through a series of productive activities and questionnaires panned over six hours, the students and staff enjoyed and learnt about themselves which no book could ever teach. A little creativity, some meditation, itty-bitty dancing and abundance of smiles and laughter left everyone gasping for more. The you in YOU that you never knew, was rightly brought out to light.

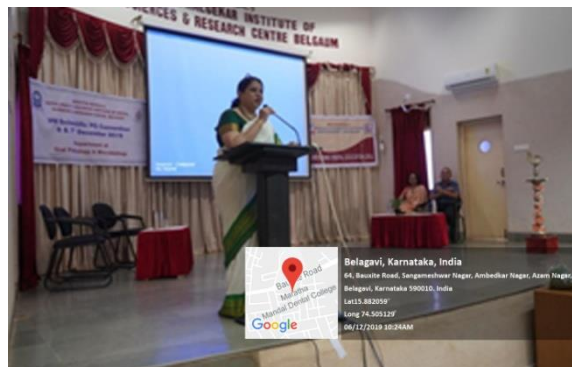

MISSING LINKS IN SCIENTIFIC WRITING

The Central Research Laboratory of Maratha Mandal's NGH Institute of Dental Science & Research Centre organized one day seminar cum workshop entitled "Missing Links in Scientific Writing" on 3rd Aug 2019.
